User Manual

TG1 Smart Watch

Please refer to this manual before using the product.

V1.0

Notes:

1.1 The company reserves the right to modify the contents of this manual without any further notification. It is normal that some functions may vary in certain versions of software.

1.2 Please charge this product with the configured cable for no less than 2 hours before using it.

1.3 Before using the product, you need to connect the APP synchronization time and set your personal information.

1.4 This product supports IP68 rank waterproof, not suitable for deep sea diving. Hot water, tea and other corrosive liquids are destructive to the watch, and will not be able to enjoy the product warranty and free maintenance services.

01 How to wear

Please wear the device on your wrist correctly, about one finger from the carpal and adjust it to comfortable position.

Tip: Please wear the device a bit little tighter when heart rate monitors.

02 How to download & connect to APP

02.1 Long press side button to power on, slide down from the top from watch face home page, go to "Settings--About--Download QR code", scan QR code to download and install "GlorryFit" APP You can also scan below "GlorryFit" QR code to download and install "GlorryFit" APP.

02.2 Go to app "GlorryFit" and select "Add Device" on the device page, then follow the instructions on the screen.

02.3 How to connect to BT call feature:

1) Android phone: After the APP and the watch are successfully bound, it will automatically prompt whether to pair with the audio Bluetooth KW216(ID-xxxx), please click to pair it directly.

2) IOSphone (IOS model system version 13 and above supports one-keyconnection prompt) and some Android mobile phones: After the APP is successfully bound to the watch, when using the phone function, you need to manually go to phone settings--Bluetooth--Search audio Bluetooth KW216 (ID-xxxx) . Click to pair the audio Bluetooth KW216 (ID-xxxx) and the phone function can be used normally only after the pairing is successful.

Tips:

- (1). Please upgrade the app to latest version to get a better experience.
- (2). Andorid 5.0 and IOS 9.0 or above system are compatible with the App.
- (3). For the first time connection with iphone, "Pair" reminder will pop-up, click to pair, then incoming calls and instant messages will be pushed.
- (4). For the first time connection with android, "Permissions" reminder will pop-up, please follow up the guidance and allow permissions to ensure all functions working properly.
- (5). To connect successfully, please turn on mobile phone's bluetooth, GPS and network.
- (6). If the device cannot be searched or connected during use, please reset or turn off the watch to try again.
